Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Richard Young

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop advertising-related news in Ohio.

This is a real problem. Corporate sponsors should be identified, but moreover, this type of reporting/advertising should be stopped. It's not in the interesting of the public. It's just selling. Manipulative, and reprehensible.

What will become of us all if we're just buying a bill of goods? You know what that's called?

Propaganda.

Sincerely,
Gabrielle Burton and family

We are really sickened by the illegal bond between straight news and the insertion of commercials designed to look like real news into the newscasts. The FCC should be the advocate of the people's commonweal and not complicit in destroying the integrity of the media. Please act to stop this criminal alliance.

Ron Kroutel.

As a strong believer in the American Constitution, I would offer that our founding fathers are rolling over in their graves. This phenomenon of "fake news," as investigated by the Center for Media and Democracy, is a disgusting breach of the public trust. Commercial interests should NEVER be allowed to pose as news interests. And if you do nothing about it, then I charge the FCC with promoting public deceit!

Act NOW! Please, for the sake of our very culture, use your legitimate power to cause some irreparable good! Let's subordinate ourselves to the truth, not the dollar!

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
linda selvia

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Dear FCC, It is appalling that the public airwaves are being used to profer "fake news" to citizens. If corporations want to advertise or get their message out, do not allow them to use a "news" format.

Even in the newspapers there must be a disclaimer "advertisement" on the heading. The same should be true for TV. The "truth" to be found in the local & national news is confusing enough without this blatant abuse by certain corporations, being abetted by certain local stations.

Please do what you must to bring an end to this deception.

Sincerely, Paul Elliott 242 Cordero Trail Loveland Ohio

Please act immediately to stop fake news in Ohio. The public needs REAL information and the FCC is responsible to protect the public interest and to assure laws are upheld. It is sickening to think misinformation, illegal marketing, or political propaganda is being condoned on the public airways. It is time for the FCC to stand up and make a case for this blatant conflict of interest and stop this acceptance of special interests control of the media.

FCC, do what you are mandated to do.

Sincerely,
John Richter

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio. If the media is to retain any credibility in this country (and has clearly lost much in the last 5 years) the distinction between legitimate news content and paid advertisements must be made clear. Clever attempts to disguise "infomercials" as news will lead to further discrediting of an important source of information that is vital for the health of this nation.

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Sarah Young

Often these stations speak of "news you can use," but most of what they present is of auto accidents and shootings.

News that I can use tells me about the activities of my elected officials, and about legislative agendas that I might wish to support or oppose. It tells me of community activities that may be of interest to me. It does not attempt to sell me something.

When they present "news" presented to promote a corporation's products or services, it's still not news that I can use.

Please act immediately to stop fake news in Ohio.

There is precious little left of our national integrity, let alone political integrity. Objective news reporting is among the last protections of our democracy, as an informed - not a MIS-informed - public is necessary to it's survival. The public must have legitimate faith in themselves and their leadership. We cannot allow the media to become mistrusted and/or to become tools of those who would BUY our democracy and its direction. Put a stop to these criminal activities among politicians and corporations; they must not manipulate the truth.

Please act immediately to stop fake news in Ohio.

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
LYNN ROTHWELL

Don't the airwaves belong to the people of the United States? or are they now wholly-owned by the corporations?

I believe that the FCC has an obligation to monitor these airwaves and must now see that the PEOPLE ARE BEING DECEIVED. TV stations are presenting advertising as NEWS. THEY SHOULD BE FINED AND THEIR LICENSES TAKEN AWAY NOW.

Please act immediately to stop fake news in Ohio.

Sincerely,

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Living in a democracy meaning engaging in its process, the important and critical role journalist and news are suppose to play is being compromised by greedy filthy executives, who don't appreciate the value for FREE SPEECH and open, honest and TRUTHFUL discussion. Which most directly applies to news broadcast, so please DO SOMETHING to stop these phoney new stories and hold those ACCOUNTABLE who chose to air them instead of actual, important news.

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Kelly Kofron

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Bro Mitchell Schweickart, SM
118 Findlay Street
Cincinnati, OH 45202

Local news with relevant stories has been hard to find but now corporate news is claiming the only time left for information. I want real reporting and real reporters looking for relevant stories. Please act immediately to stop fake news in Ohio.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. These stories promoted products for corporate sponsors. Please do your best to stop dishonest corporate ads posing as news stories.

Sincerely,
David Greene

"Puffs" in advertising are now being promulgated as news on Ohio stations. "Puffs" are bad enough in that they are lies. Now we see that these misrepresentations are being foisted off as news. Please stop 'fake news' and take action against the increasing use of "puffs" in all its various forms throughout media empires!

WSYX is a broadcast station in my home town, Columbus, Ohio.

I am shocked and appalled to learn of this practice of airing "fake news" motivated by corporate profit rather than the "public good" of factual and informative information. I urge the FCC to act immediately to stop fake news in Ohio and other states.

Sincerely,
Mary Haller

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
gabrielle wonnell

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
James Lee Giles

I can't believe you allow such atrocity. Selling and promoting a product or idea should be reserved for its media, the commercial. It is no wonder that people aren't watching television like they used to.... they are on to the lies and deceit. I don't want my life sponsored by a product, and I don't want my country sponsored by a product.
GET REAL!

It's bad enough that crime is most of what information local television gives the public.

But propaganda and lies, too?

Too much. Please take action against four Ohio stations involved in fake news- #COP-9, WSYX-6, Ohio News Network, and WYTV-33.

Thank you,

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Dena Lurie

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Diane Florian

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Rita Haider

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Ryan Pulis

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Virginia Douglas

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Charles Hunter

Dear FCC MEMbers,

As a voting Republican, I find the fake news releases run by various urban news stations in Ohio to be directly to the vaunted "People's right to know".

It seems we have a right to know only what the stations choose to disclose.

Infomercial segments should be required to be identified as such in the interests of truth and accuracy in media.

Please act IMMEDIATELY to stop fake news in Ohio.

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Zachary Schunn

This fake news stuff can be the end of us all.

With fake news how will we ever know if we ever get taken over by another country or entity... yes it goes this deep.

Fake news tells us we can not believe anything soon. And the info-mercials may benefit now but it can backfire on all of us.

News is supposed to be un-biased.

Fake news may even have elected this President and look what that has gotten us...

Fake news gives many conspiroucy theory's a whole new level of power and momentum and gets more people interested in them.

Who is checking the checkers?

...all these questionable questionables can't be good for life on earth as we now know it.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

As a former broadcast journalist currently working as a college instructor, I know first-hand that the use of VNRs by local stations without attribution is not a new phenomenon. TV stations have long relied on VNRs to fill time in newscasts. The practice is driven by the desire to make high profits while keeping payroll costs down. Using VNRs in local newscasts without attribution is a severe violation of the public trust and must be stopped.

Sincerely,
Christopher Shumway

This is outrageous, the public is mis-informed and out and out lied to.

If not from the media then where are we to find honest reporting?

It is shameful that such deceit and underhanded reporting is permitted. Something is very wrong with a system that reports lies and half truths.

This Dispatch is part of my daily news service. I have given up completely on ABC - Sinclair Broadcasting which is jointly serving FOX - also owned by Sinclair Broadcasting. They have used excessive faux news stories for ages, as well as provided questionable editorial comments by Sinclair. I let ABC know a good deal that I am unhappy with their affiliates here in Ohio. The issue of truth in our journalism is more important today than ever before. The local community must take control..

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

I am getting to the point of not trusting anything I hear on TV.

I have done a diagnostic with the DSMIV and found corporations that neatly fit the bill of "Psychopath". Is this a group we want to "pretend" as news commercials from psychopaths?

Sincerely,
Victoria Sealock

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Myron Kaliski

Will we ever have real news reporting? I mean the "real truth" kind of news. Truth appears to be a lost cause. Quit allowing these stations to make profits for the sake of their own gain.

Sincerely,
Carol O'Laughlin

Please act immediately to stop fake newscasts that appear on the local news in Cincinnati. Advertisement that masquerades as news is deceptive. It often involves some particular medicine that is touted as a new cure. The "news segment" does not tell you that it is sponsored by the pharmaceutical company nor does it tell you that there are often cheaper effective medicines. It is not news. My children are exposed to this type of news and are being taught that this is what real news is. These advertisements take up significant portions of the news time and would be ignored if they were separate commercials. I am tricked into paying attention during the morning rush when I am listening for significant, relevant news. The broadcasters should at least be required to tell us that we are watching a commercially sponsored commercial. Thank you for your attention to this matter.

Sincerely,
Timothy Hof

Subject: Stop Fake TV News in Ohio

Dear Federal Communications Commission,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Stephanie Hotze

Please act immediately to stop fake news in Ohio. Shilling for corporations on newscasts does not constitute news. It's paid advertising, during the newcast. That's wrong. It's time to stand up to the corporations, who are already monopolizing media. If they take over newscasts, our democracy is further taken away from the people

Sincerely,

The Center for Media and Democracy and Free Press recently exposed several local television stations that aired promotional corporate "video news releases" as real news.

Four Ohio stations -- WCPO-9, WSYX-6, WYTV-33, and Ohio News Network -- are among those that aired fake news. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Ann Tyeshimels

P.S.

A true democracy must depend on the nature of its news.

To infiltrate news with with other than honest news is deception.

Thanks for listening.

The news is already sanitized for our delicate ears. Big media must think we are not grown-up enough to hear the truth, whether it's the war in Iraq, the various doings on Capital Hill, or our civil rights being eroded. Now Corporate America needs to create news to help us believe how good things are for American citizens. Please...we may not be rocket scientists, but we're not quite as dumb as a box of rocks!!!
